

True Hepa H13 Household Air Purifier for Allergen Removal

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Envitek
- Certification: ETL CB EMC LVD ERP ROHS
- Model Number: KJ050GE-C7
- Packaging Details: color box+master carton
- Delivery Time: 30
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 30000 PCS/MONTH

Product Specification

- Name: Air Purifier For Household
- Color: Black
- Control: Touch Control Panel
- Voltage (V): 100-240V 50/60 Hz
- Type: Hepa-Filter
- OEM&ODM: OK
- Highlight: hepa h13 household air purifier,
true hepa h13 household air purifier,
household air purifier for allergen removal

Smart sensors let it detect air quality in real-time and adjust power accordingly.

Control it remotely via a user-friendly app.

Set schedules, change speeds, and monitor air quality from your phone.

It operates quietly, even on high,

has tiny pores, a large adsorption capacity, and a high purification efficiency.

The working principle of the Hepa filter is that when the air containing dust particles passes through the Hepa filter, the suspended particles in the air will be blocked outside, thereby playing the role of

filtering and purifying the air. It can effectively filter particles of 0.3 microns in the air. The filtering effect on particles $\geq 0.3\mu\text{m}$ can reach 99.9%, and the filtering effect on PM 0.1 particles can reach 99.99%.

The higher the grade of the Hepa filter, the better the filtering effect.

Generally, air purifiers on the market use filter elements of grades H12 and H13

. Hepa filters can also be combined with other filtration technologies, such as activated carbon filtration, to improve the performance of the air purifier.
