

Quiet Operation Hepa Filter Air Purifier for Household

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Envitek
- Certification: ETL CB EMC LVD ERP ROHS
- Model Number: KJ050GE-C7
- Packaging Details: color box+master carton
- Delivery Time: 30
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 30000 PCS/MONTH

Product Specification

- Item: Household Air Purifier
- Feature: Quiet Operation
- Control: Touch Control Panel
- Voltage (V): 100-240V 50/60 Hz
- Type: Hepa-Filter
- OEM&ODM: OK
- Highlight: quiet operation hepa filter air purifier,
hepa filter air purifier household,
negative ions hepa filter air purifier

Product Description

Say Goodbye to Air Troubles: Your Ideal Air Purifier

Waking up with a scratchy throat or dealing with lingering party smells? These air issues can really bring down your quality of life, but our top - notch air purifier is here to help.

It's made for your comfort, with a powerful motor that quickly filters large amounts of air. Its multi - layer filter system is amazing. The pre - filter catches hair and big dust, the HEPA filter traps 99.97% of tiny particles like pollen and bacteria, and the activated - carbon filter gets rid of bad odors and harmful chemicals.

The smart features are a big plus. Connect it to Wi - Fi and control it from your phone. You can turn it on before you get home for fresh air. It also has a built - in air quality monitor that shows real - time air quality and adjusts the fan speed automatically.

It's quiet too, especially in sleep mode. You won't even notice it's there while it cleans the air. And its compact, stylish design fits any home decor.

Don't let bad air spoil your days. Get our air purifier and enjoy a cleaner, healthier home.

Product Specification

Model	KJ050GE-C7
Sound Level	≤55dB(A)(Max)
Rated Power	10.5 W
CADR rate	50CFM (85m³/h)
Product size	φ200*H254mm
Area coverage	6-10 m²

Product Features

- Hepa filter with carbon (True Hepa H13 for option)
- 3 speeds and sleep mode
- 2,4,8hours timer setting
- Filter changing reminder
- Night light
- Quietly operates throughout the night
- Negative ions for option

Hepa Filter Working Principle

Hepa filtration is a commonly used filtration technology in air purifiers. The Hepa filter is composed of very fine organic fibers interwoven together, has a strong ability to capture fine particles, has tiny pores, a large adsorption capacity, and a high purification efficiency.

The working principle of the Hepa filter is that when the air containing dust particles passes through the Hepa filter, the

suspended particles in the air will be blocked outside, thereby playing the role of filtering and purifying the air. It can effectively filter particles of 0.3 microns in the air. The filtering effect on particles $\geq 0.3\mu\text{m}$ can reach 99.9%, and the filtering effect on PM0.1 particles can reach 99.99%.

The higher the grade of the Hepa filter, the better the filtering effect. Generally, air purifiers on the market use filter elements of grades H12 and H13. Hepa filters can also be combined with other filtration technologies, such as activated carbon filtration, to improve the performance of the air purifier.

KJ050GE-C7 HEPA-type filter

Pre-filter block large airborne pollutants

HEPA filter kills more than 99.5% of tiny air borne pollutants

Activated Carbon filter target smells and smoke

3 IN 1 COMBO FILTER
